

Hi Haydn,

Since the last time I was in touch, there have been many changes. There was the meeting of interested parties that was mentioned below and then a further meeting of a smaller group of people when a decision was made on the way forward. The lockdown delayed things somewhat as folk were dealing with a new way of doing things. However, as things started to ease, we have managed to have another meeting at Treetops between me, David Lloyd and Jon Evans when the final plans were decided. David drew these up and they have now been submitted for planning and for quotes. I estimate that we will require approx £90-100K.

I have attached the plans but as you can see, they comprise a large extension towards the road which includes an enlarged main hall and extra storage. This will greatly enhance the facilities for Treetops (being the only nursery in the area when the new houses go up, they will need the extra capacity) and for the Scout Group which has basically been squeezed out of the Scout Hall by Treetops requirements.

Could you now assist us in applying for S106 funding for this scheme. Can I just complete the form you sent before or should I start again, with your help?

Hilary Ashton
