

As the Lisvane Time Line is constantly evolving we have taken the decision to publish, the work in progress, in the belief that the more people we can get to read the information, the more chance there is that additional documentation will be forthcoming. Where possible we have used official records to check the details. We have though found discrepancies in some printed information and in some cases when it relates to the construction of a building the dates vary, some showing the date planning permission was given, others when the building was completed.

We would be delighted to hear from anybody with a connection to Lisvane, Glamorgan as we are recording individual's memories, photographs, family history etc. If you have any information we would be delighted to hear from you, please contact the Secretary, Gillian Lawson (email lisvanehistory@btinternet.com or telephone 02920 753868).
